ROCK SALT TILES AND BRICKS

Manufacturer and exporter of salt room, red salt, salt spa, salt cave, salt spas, salt blocks, salt wall, salt tile, salt tiles, salt brick, salt bricks, halotherapy, salt slab, salt cave spa, himalayan salt slab, salt cave therapy, himalayan salt slabs, block salt suppliers, pink salt block, himalayan salt bricks, himalayan salt brick, rock salt bricks, himalayan salt tile, rock salt brick, salt tiles, wholesale salt tile, himalayan salt tiles wholesale, himalayan salt tiles, himalayan salt brick wall, himalayan salt bricks for wall. Rock Salt Bricks can be used to build Salt Cave for Speleotherapy, spa, gyms and yoga rooms and to decorate receptions and fireplaces as well. A salt brick may be placed in front of a wick, lamp or any other source of light. The salt becomes warm and irradiates a pleasant light thus providing ionizing and color therapy effects at the same time. A brick may be placed on top of the radiator or heater or clay stove when the heating season begins. These Salt bricks may be used for construction purposes as well: building a wall in front of a radiator, covering stairs, floor tiling, covering certain wall surfaces, building room separation, or even a whole salt room or salt cave. Speleotherapy means to be located in a room or area with a presence of Salt Crystal Rocks and to breathe the healthful ionized air. Speleotherapy is a natural health alternative treatment for asthma, respiratory conditions, immune system disorder and illnesses. Tiles can be crafted as following polygonal shapes 3 side's equal triangle, 4 side's Equal Square, 4 side's Equal rectangle, 5 side's equal pentagon, 6 side's equal hexagon OR as per demand. The mostly used tile for interior construction is 2" thick x 4" wide x 8" length. But any of your desired size can be possible. Further sizes are stated below, all sizes are given in inches. These sizes can also be manufactured in one side NATURAL (front side having rough texture)

Packing details:
